

Inclement Weather Policy

One of the foundations of FiA is that FiA workouts are held outdoors: rain or shine, hot or cold. FiA makes no representations with regard to the safety or hazardous nature of the premises upon which workouts are conducted. FiA participants are expected to make their own reasonable decisions regarding whether weather conditions are safe, given their own skill levels and individual physical limitations.

FiA Nation leaves the ultimate decision regarding whether to cancel a scheduled FiA workout due to weather conditions to the Regional Leader (RL), the Leadership Board and the workout Site Q. The Site Q knows her physical site and its potential perils best. She will discuss cancelling with the RL and Board. However, the Site Q will use her discretion wisely and sparingly, as appropriate, remembering that a scheduled FiA workout is a promise to the PAX.

FiA workouts should not be cancelled for rain, heat, or cold, barring extremely rare weather conditions which render it impossible to exercise outdoors. FiA workouts should be cancelled in the event of lightning or any extreme weather condition that renders the road and/or site perilous to travel by car or foot such as ice, snow, or flooding. FiA workouts should also be cancelled for meteorological perils such as tornado and hurricane watches and/or warnings.

Upon cancellation, the RL or Site Q will alert the PAX of the cancellation via their group communication method/app. They will notify their Social Media Q who will blast the cancellation out on all social platforms.
